

## Which 1 of the 5 are you?

The Friends of Mercy Foundation launched a new Annual Employee Giving Club on September 13th, to raise money for Mercy Hospitals. Mercy's Spirit of Giving Club is an annual giving club and each year employees will be able to choose a hospital project to support with their donation. It will also be an annual revenue source that Mercy will be able to count on each year. Imagine the impact we can make as employees committed to giving beyond our own needs!

The theme for the Spirit of Giving club is based on the Core Values and there are five teams representing each value – Dignity, Collaboration, Stewardship, Excellence and Justice. Our goal is that 25% of all employees participate at some level in the Spirit of Giving Club. Each team will compete to see who can reach 25% participation first! Once a team reaches 25% participation, all donors of that team will receive ice cream vouchers. We will continue to monitor and update the thermometers in each cafeteria and provide updates on the progress of each team.

There is still time to sign up and participate in the Spirit of Giving Club! All you need is to turn in your pledge card to any of the following locations: Team Captain or Station, Cafeteria Events, Mercy Week Celebration Booth, Administration offices at Truxtun & Southwest and Friends of Mercy Office. As soon as you turn in your pledge card you will receive your team bracelet and be entered to win an iPad!

Please contact Erica Easton at \*6754 or [erica.easton@chw.edu](mailto:erica.easton@chw.edu) if you have any questions.

Special thanks to the Spirit of Giving Club Committee!

On September 14, 2010 we marked the start of The William Howell Century Club with a charter membership dinner at T.J. Maxwell's. Members of the WHCC are continuing the mission of William Howell, who was key to bringing the Sisters of Mercy to Bakersfield over 100 years ago. This is a new annual men's giving club that will complement the Catherine McAuley Society that will be starting its 5th year this November. Each member contributes \$1,000 each and their cumulative gift will fund a capital project for Mercy Hospital or Mercy Southwest Hospital.

## The Wheeler Foundation

The Wheeler Foundation donated the funds to purchase Glidescopes for Mercy and Mercy Southwest. This specialized equipment is used for intubation which can be particularly difficult and life threatening on trauma patients, heavy patients or patients with unusual anatomy. The new equipment has been at each campus for a few weeks. The staff loves the new equipment and know it will have a direct impact on both quality and providing perfect care for our patients.

Coming Soon!

Pictured to the left is one of the photos included in the History Display that will be unveiled at the Southwest campus soon.
